Background:

Dental hygienists are regulated by the Secretary of Health. They may perform dental services and operations under the supervision of a dentist including removing deposits and stains from the surfaces of teeth, applying topical preventative agents, and polishing and smoothing restorations. With an endorsement from the Department of Health, dental hygienists may apply sealants and fluoride varnishes in community-based sealant programs.

Summary of Substitute Bill:

Licensed dental hygienists may apply antimicrobials in addition to the other services that they are authorized to provide.

Appropriation: None.

Fiscal Note: Not Requested.

Effective Date: The bill takes effect 90 days after adjournment of session in which bill is passed.

Testimony For: This is a minor increase in service, but one that will benefit the public. This practice helps prevent periodontal disease.

Testimony Against: None.

Testified: (In support) Representative Campbell, prime sponsor; Susan Savage and Melissa Johnson, Washington State Dental Hygienists Association; Bonnie King, Department of Health; and Gary Allen, Columbia Dental Group.

(With concerns) Linda Hull, Washington State Dental Association.
